09 Residential Striping & Facility Markings

Garage parking guides, workshop zones, driveway markings, storage lanes, and home-use organization.

WHAT IT IS

Residential striping and markings help organize garages, parking pads, workshops, hobby spaces, sport-court layouts, and household work zones.

HOW IT'S DONE

- Lay out parking guides, storage zones, walk paths, safety areas, workshop zones, or driveway markings.
- Clean and prepare the surface, mask or stencil the layout, and apply the selected traffic-rated paint, epoxy, or urethane.
- Coordinate colors, cure time, and access so the household knows when the space can be used again.

WHAT TO EXPECT

Surflex keeps layouts neat, protects adjacent surfaces, and plans around household access, parking, pets, and normal daily use.

FINAL RESULTS

A cleaner, more organized garage, driveway, workshop, or residential activity area with durable markings and a more finished appearance.

Built for occupied homes, garages, basements, patios, and homeowners who expect clean work.

Surflex Systems brings 20+ years of practical experience, trained crews, safety-focused planning, and quality workmanship to residential concrete restoration. We protect walls, trim, doors, landscaping, storage, and household access, use mock ups or samples when finish expectations need confirmation, and leave the work area cleaner, safer, and more useful than we found it.

PREP

Parking, storage, workshop, or activity layouts are measured and masked.

INSTALL

Lines and markings are placed with selected traffic-rated coatings.

HANDOFF

Cure timing, access, and layout purpose are reviewed with the homeowner.
